INTRODUCTION

I am a London based editor with 6 years experience in Post-Production, specialising in promotional content for film and television.

I am a graduate of the Australian Film Television and Radio School ***Bachelor of Arts*** (2017). I began my career as an in-house publicist, which has uniquely informed my approach to editing with consideration for marketing and building audience excitement.

I have also worked as an EPK producer / videographer and as a feature film assistant editor, developing a deep understanding of Post-Production workflow for both short and long-form content.

I have built on-going relationships with media companies such as Goalpost Pictures, See Saw Films and Stan and have collaborated with producers, directors and marketing executives to deliver creative and story-driven media across a variety of platforms.
